

# Industrial Electrician / Control Panel Wireman

## Company:

Since 1956, Webb-Stiles Company has been an Original Equipment Manufacturer (OEM) specializing in conveyor systems, helping companies worldwide to optimize their material handling processes and increase their operational efficiency. We pride ourselves on providing innovative, high-quality, and reliable solutions tailored to our client's unique needs.

## Summary:

Webb-Stiles Company seeks a skilled and experienced Industrial Electrician and Control Panel Wireman to join our team. We want to hear from you if you have a strong background in electrical installations, maintenance, and control panel wiring for industrial applications!

## Responsibilities:

- Install, maintain, and troubleshoot electrical equipment, control systems, and machinery used in conveyor systems.
- Read, interpret, and create electrical schematics and technical drawings.
- Layout, assemble, and wire control panels according to project specifications and applicable standards.
- Diagnose and repair electrical problems.
- Collaborate closely with engineers, project managers, and other team members to ensure project completion within deadlines and budget constraints.
- Adhere to all safety regulations, including lockout/tagout procedures and use of personal protective equipment (PPE).

## Requirements:

- High school diploma or equivalent required; vocational/technical degree or certification in industrial electrical systems or related field preferred.
- 1+ years of experience as an industrial electrician, focusing on control panel wiring and assembly.
- Solid understanding of electrical schematics, blueprints, and control system design.
- Familiarity with relevant industry standards, such as NEC, UL, and CE.
- Strong attention to detail and the ability to work independently or as part of a team.
- Valid driver's license and reliable transportation.

**Schedule:** Day shift

**Job Type:** Full-time
